The Story Behind the Photo.....

This is a section in the newsletter where each month I ask certain club members to share their story on how they took their award winning photo

Cover Photo of this Newsletter
“Color Creeping up the Mountain” by Bob Panick

This was shot on a fall workshop I took from Mandy Lea Photos (link below). The shoot was based out of the Crested Butte area, in this case route 12 due west of Crested Butte. Unfortunately, the skies had been absolutely clear for most of the time there. We got this shot just as the sun was dropping a bit in the afternoon, and the angle of the sun gave us some nice shadows on the mountain.

This was shot with:

- OM System OM-1 using a 12-100 f/4 lens. This is Micro Four Thirds so 2x crop factor.
- Focal length 34 mm (68 mm FFE), f/5.6, ISO 200, 1/2000 sec.

- Processed in Aurora, Lightroom, and sky replacement with Luminar Neo.
